2021 - 2025

SKILLS

- Management Skills
- Software Developer
- data analyst
- computer hardware
- Creativity
- Digital Marketing
- Critical Thinking
- Leadership

LANGUAGE

English
Arabic

ABOUT ME

I'm a software developer with a strong passion for building real solutions and improving my skills every day. I graduated from Jamhuriya University 2021-2025, and I'm focused on growing in the tech field, taking on new challenges, and creating clean, reliable applications. I learn fast, think logically, and enjoy working on projects that push me forward.

EXPERIENCE

- Operator – National Independent Electoral and Boundaries Commission (NIEBC) 2024 – 2025
- Register voters on the official system, ensuring accurate and complete data entry.
 - Verify voter information and correct discrepancies to maintain a clean and trustworthy database.
 - Support the technical side of the registration process and report any issues to keep operations running smoothly.
 - Assist citizens during registration, provide clear guidance, and maintain a fair and professional environment.

Independent Developer Self-Driven Projects 2021- 2025

- Build full projects solo to improve skills in system design, frontend development, and backend logic.
- Create and test applications, focusing on clean UI, smooth user flow, and reliable functionality.
- Practice real-world workflows such as planning, designing, testing, and deploying small-scale systems.
